Ceiling heights, window and door information, fireplaces, skylights and recessed lighting must be shown on the plans or separately identified on this application.

Services and Pricing Schedule

Section 1

EnergyWise

Residential Energy Analysis Fees:	0 to 2,999 square foot	= \$600.00
	3,000 square foot to 4,999 square foot	= \$800.00
	5,000 square foot to 6,999 square foot	= \$1,000.00
	For every additional 2,000 square feet, add	= \$200.00
Because of the complexity of the plans for three or more levels, add		= \$200.00 to the total

Additional Services:

_____ Add a mechanical layout to my total (Section 3).

_____ Please rush my energy analysis report for an additional \$35 fee (completed within 3 business days).

*For emailed plans, a \$20 fee is applied for in-house printing. Please add this to your total.

Section 2

Volume Builders Special:

In order to better serve smaller homes, this package includes an EnergyWise Energy Analysis, Consulting (if necessary), Stamped Mechanical Layout and Energy Usage Guarantee for \$0.30 per square foot for homes ranging from 0 to 2,500 square foot (heated and cooled space).

Section 3

All residential mechanical drawings are engineered and overseen by Michael R. Busby, PhD, PE, priced at \$ 0.15 per square foot of heated and cooled area, and drawn by hand. Auto-CAD mechanical layouts are available at a fee of \$0.30 per square foot of heated and cooled area.
